

Key Learning for Year 2	By the end of Year 2, a child should:
<p>Number and place value Counts in steps of two, three, and five from 0, and in tens from any number, forward and backward Compares and orders numbers from 0 up to 100 Uses < > and = signs correctly Uses place value and number facts to solve problems</p> <p>Addition and subtraction Solves problems with addition and subtraction by: 1. using concrete objects and pictorial representations, including those involving numbers, quantities and measures; and 2. applying an increasing knowledge of mental and written methods. Recalls and uses addition and subtraction facts to 20 and 100: 1. fluently up to 20.</p> <p>Multiplication and division Recalls and uses multiplication and division facts for the two, five and 10 multiplication tables, including recognising odd and even numbers Solves problems involving multiplication and division, using materials, arrays, repeated addition, mental methods, and multiplication and division facts, including problems in contexts</p> <p>Fractions (including decimals) Recognises, finds, names and writes fractions $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$, and $\frac{3}{4}$ of a length, shape, set of objects or quantity</p> <p>Measurement Solves simple problems in a practical context involving addition and subtraction of money of the same unit including giving change</p> <p>Geometry: properties of shape Compares and sorts common 2-D and 3-D shapes and everyday objects</p> <p>Geometry: position and direction Uses mathematical vocabulary to describe position, direction and movement including movement in a straight line, and distinguishes between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise)</p> <p>Statistics Asks and answers questions about totalling and comparing categorical data</p>	<ul style="list-style-type: none">• be mentally fluent with whole numbers, counting and place value.• know the number bonds to 20 and be precise in using and understanding place value• use practical resources to work with numerals, words and the four operations (eg concrete objects and measuring tools)• use a range of measures,• recognise, describe, draw, compare and sort different shapes and use the related vocabulary• describe and compare different quantities such as length, mass, capacity/volume, time and money• read and spell mathematical vocabulary at a level consistent with their increasing word reading and spelling knowledge at key stage 1
